

BX270

Sleek design,
ultra-compact box

Now also
available
with LED
lighting

FOR THOSE WHO ENJOY A COOL AND STYLISH SPACE!

The BX awning with its ultra-compact box can be integrated seamlessly into any façade. The innovative structure with its wide wall brackets allows you to mount the awning on almost any surface. The closed box system ensures that when rolled up the fabric is fully protected against dirt and extreme weather conditions. The extension pole has a subtly integrated water drain. In short, the compact BX270 is an amazing new product!

Made-to-measure fabrics

Each awning has a high-quality acrylic fabric coloured in mass. The special treatment leaves it mould and dirt resistant. This keeps the fabric looking clean and bright for many years. With an exceptionally wide choice of colours and designs (blocks, fancy stripes...), it will add the finishing touch to your home.

Seamless integration with your home

Create a harmonious combination with the BX270 box colour and your external joinery. Harol offers all RAL colours and scratch-resistant textured coatings for a standard price. This should make your choice a little easier. Convenient, right?

Create the ideal atmosphere with LED lighting

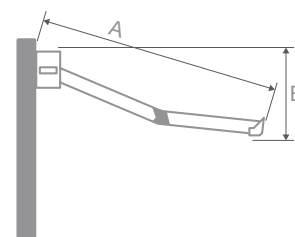

Want to give your terrace a warm touch? Why not go for the energy-efficient LED lighting option. This extends over the full width of the screen. And you can use the LEDs any time you want, irrespective of whether the screen is in an open or closed position.

All RAL colours and textured coatings at standard price.

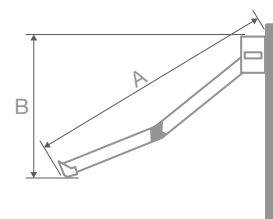

A list of why the BX270 is so irresistible:

- A sleek design with an ultra-compact and fully enclosed box
- Integrated water drainage
- Optional extras:
 - Valance for extra shade
 - LED lighting (680 lumens/m)
 - Sun, wind and rain sensor

All our HAROL products stand for:

Comfort

The motorized HAROL solutions guarantee ultimate user comfort. Using a remote control, smartphone or tablet; one command operates all our products. Are you looking for 100% trouble-free operation? Opt for automatic controls. The solution will take care of all the controls; you can relax, as the settings are always optimal.

Security

HAROL products not only add character to your home, they also protect your family from unwanted visitors. Our specially developed security packages go even one step further. Smart solutions, robust equipment and automatic control systems provide multiple solid barriers. And during extended absences these will give the impression you are still at home. This way no one can jeopardize your sense of security.

At Harol, we always respond to your needs. An excellent service and installation by experienced craftsmen is a standard requirement for us.
