

RANGE INFO

SOLARTEK SOLAR BRONZE

Designed for maximum heat rejection, Solartek Bronze is a perfect solution for commercial buildings that receive an excessive amount of solar exposure. Its aluminium, metallized construction provides the comfort and protection needed while reducing the sun's glare that causes unwelcome eyestrain.

Additionally Solartek Bronze films will assist with balancing interior hot spots and deliver cost-efficient energy savings for Building Manager's and homeowners whilst giving daylight privacy deterring opportunist burglar's making it difficult to see through your glass that would normally present a view of your expensive belongings.

DARK

HEAT REDUCTION - 79%

GLARE REDUCTION - 75%

**RADIANT HEAT REFLECTANCE
(IN DURING WINTER) - 35%**

MEDIUM

HEAT REDUCTION - 66%

GLARE REDUCTION - 58%

**RADIANT HEAT REFLECTANCE
(IN DURING WINTER) - 31%**

With a modern metallic finish Solartek Bronze blends in well with factory tinted glass along with today's more sophisticated commercial and residential architecture.

Aesthetically enhances bronze and brown coloured brick buildings and looks great against brown window frames.

ALL OF THE BENEFITS ABOVE PLUS...

REDUCES FADING

99% OF HARMFUL UV RAYS BLOCKED

SCRATCH RESISTANT COATING

10 YEAR SOLARTEK
