Pure Sense Range

New colours & finishes

- Reflecting the on - trend look for interiors, the Pure Sense range offers exciting new design features with a smooth slat feel with a super matt or soft glow finish
- New range of **subtle on trend colours**
- **Total 33 colours**

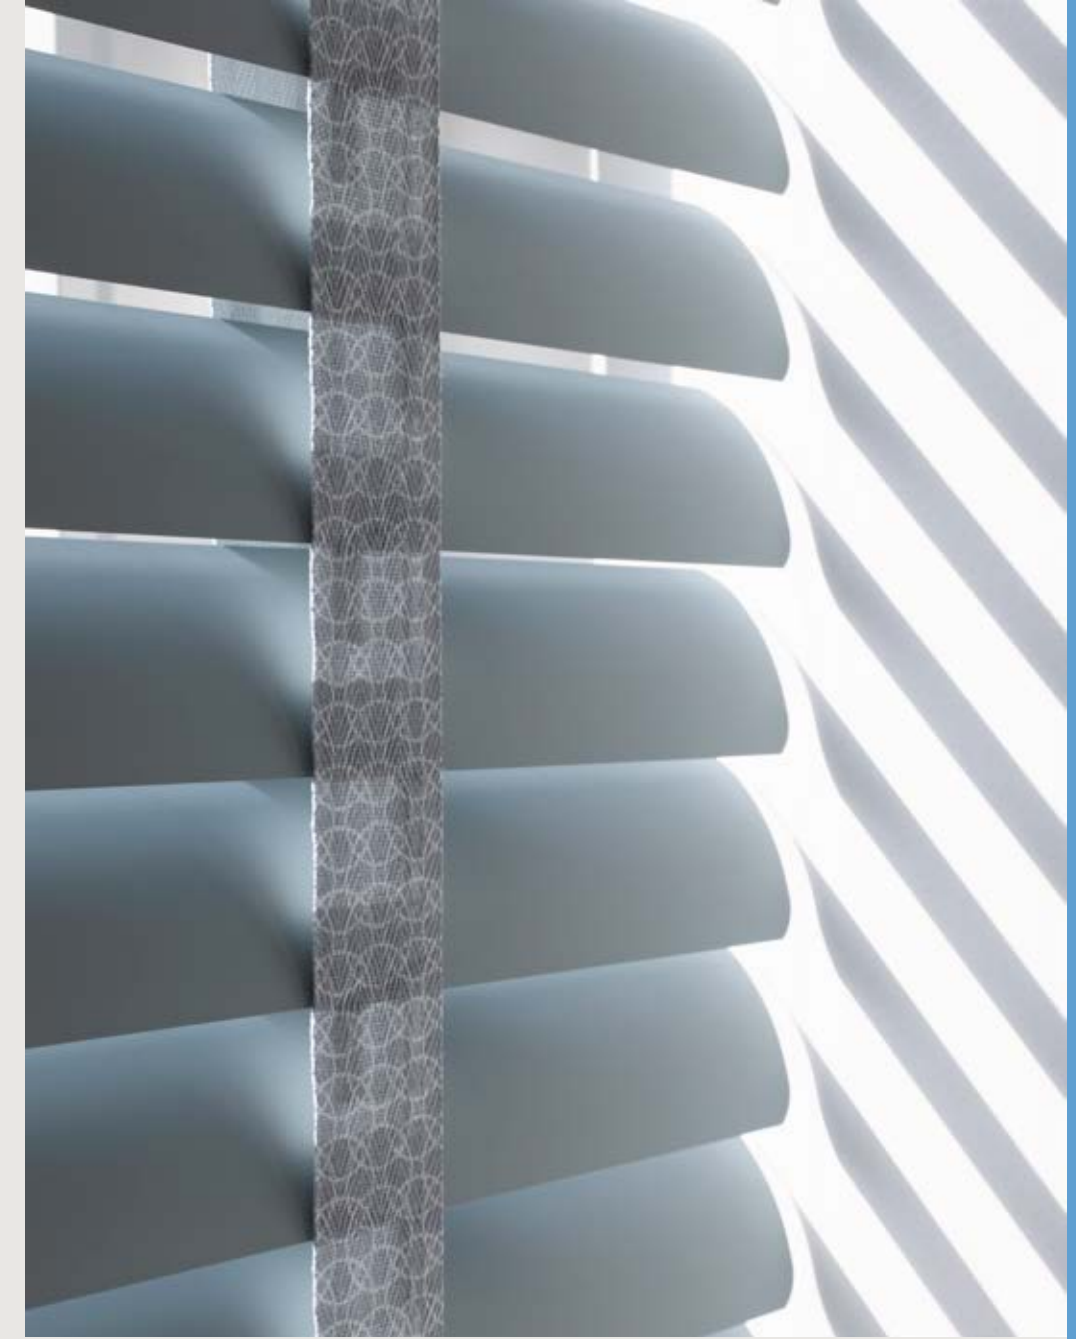

NEW Colour & Finish

New design concept

- Pure Sense two tone colour design in a **soft matt finish**
- The two-tone range features a lighter tone on the front facing slat and a darker tone on the back to change the mood from light and fresh in the day to cosy in the evening
- Stylish decorative tapes in plain or patterned designs add contrast to suit the décor style

Venetian Blinds

NEW Operating system & Colour

- Top Down/Bottom Up Patented Operation:
 - The new design uses a handle to raise or lower the blind and a slider to tilt the slats to the desired position
 - The patented slider is located on the bottom and top of the blind for convenient operation
 - Great feature for high or hard to reach windows
- Our **TruFit®** systems let you install Venetian Blinds directly on the glass without drilling the frame. Ideal for tilt turn windows.
- New colours - **greyish green tones**
- New very matt finish - big look for interiors
- Precise operation for flexible light control and privacy

Venetian Blinds

NEW Colour - MegaView®

- Pure Sense soft touch slats with an iridescent glow.
- **New Colour: Anthracite.** Also available in white, grey, brick and taupe tones.
- When opened, MegaView® provides **double the view** to the outside whilst maintaining privacy when closed or tilted.

Child friendly operating options

- Now includes quick release chain and motorized options.
- The new Quick Release Chain operation, is easy to use and meets **EN Child Safety Regulations** for internal blinds.
- To raise or lower the blind gently move the chain up and down. If any force is applied to the chain the quick release function is activated and the chain safely drops out. The chain can be snapped back into place and the blind will function normally again.

Venetian Blinds

Luxaflex® Collection book

Venetian Blinds

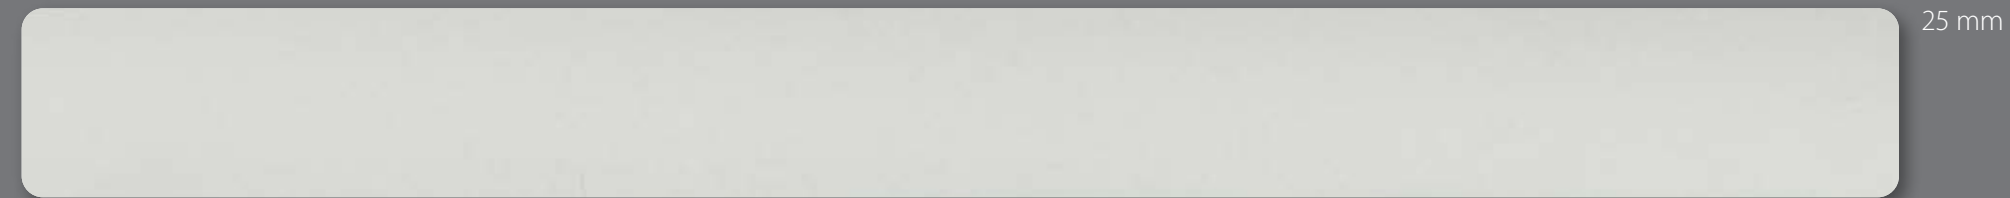

Step plan

1 Choose your slat size

Select your slat size depending on the size of your window, privacy, light needs or design preference.

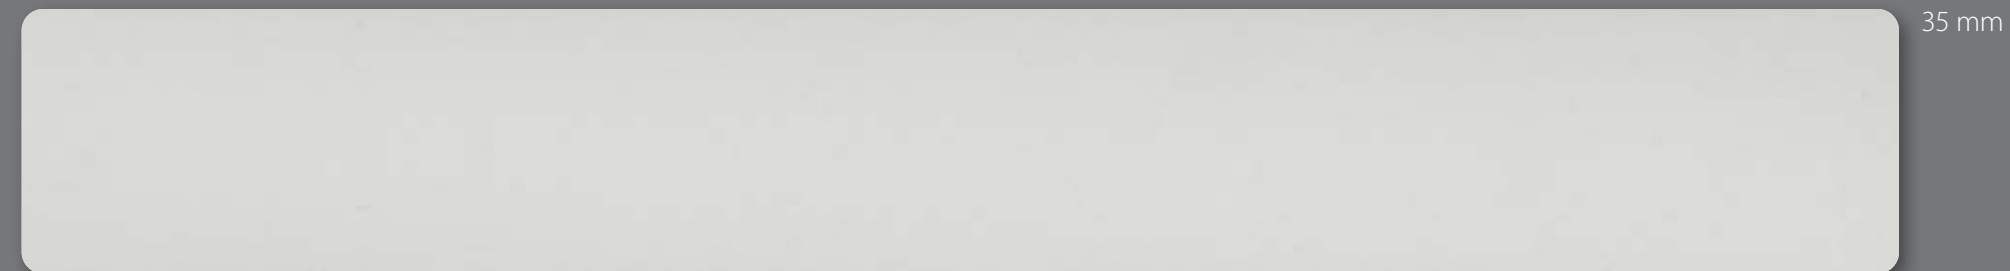

16 mm

25 mm

The 16 & 25 mm slat style has an elegant modern look that compliments smaller windows.

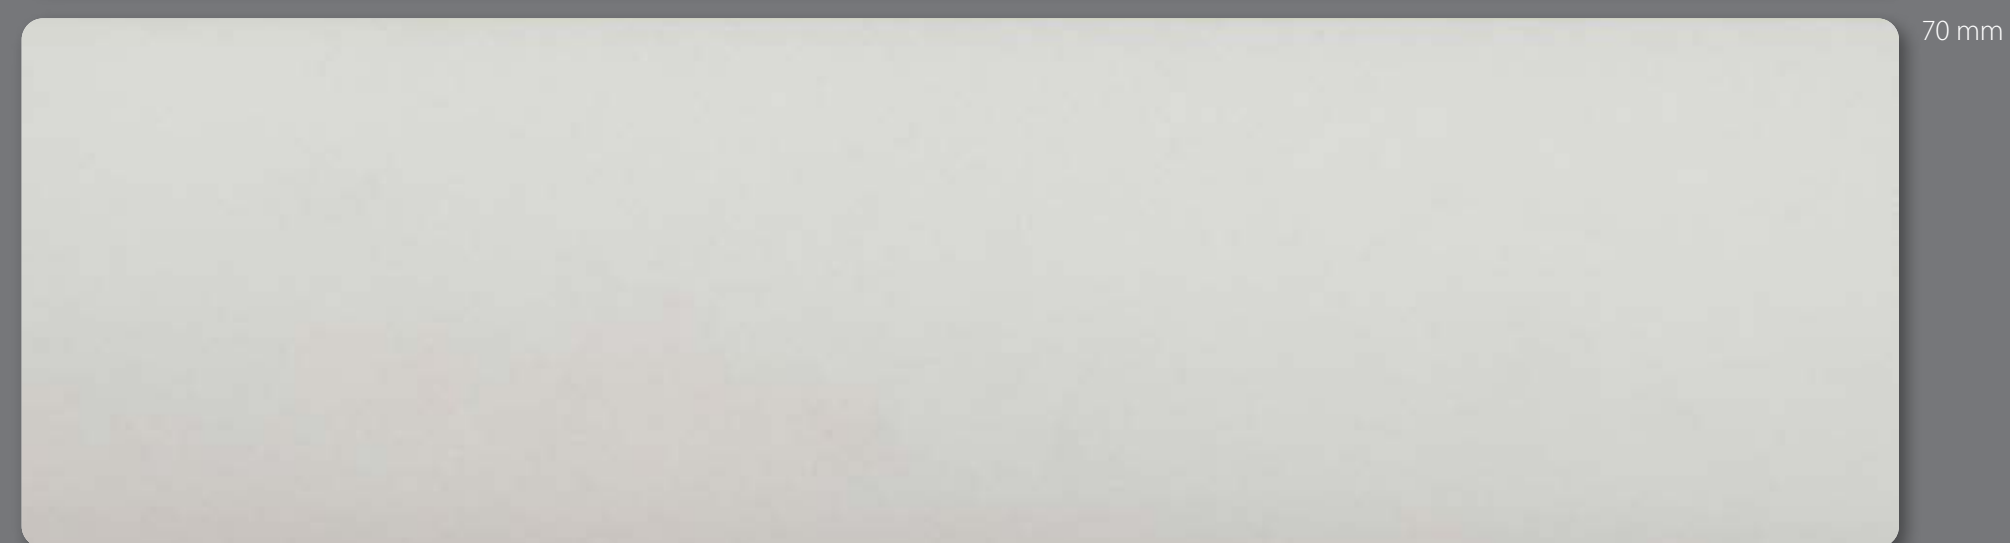

35 mm

Choose the 35 mm slat style for a clean modern look to perfectly frame medium and larger windows.

50 mm

70 mm

Choose the distinctive 50 & 70 mm slat size to balance out the scale of large windows.

2 Select your Colour and Design

Our new collection includes trend-setting colours, designs and elegant personalisation options to make your style statement in every window of your home. From the most subtle matt neutrals and pastels, to lively colours and tactile finishes - there's a perfect look for every room and style.

Colour & Design highlights - Pure Sense colours

Bring home design style with new colours and looks

Precisely managing the light and your privacy with timeless style, is the signature of the Luxaflex® Venetian Blind 'Pure Sense' range. On trend subtle colours with a beautiful super matt finish or soft glow finish, some even feature a unique two-tone slat colour. The lighter colour enhances the daylight and the darker tone creates a cosy feel especially in the evening when the blinds are tilted. A natural feature of the Pure Sense finish is that it attracts less dust.

See the Pure Sense colours on pages 37-47.

Luxaflex® Venetian Blinds - 16 & 25 mm

The 16 & 25 mm size Venetian Blind has an elegant look that compliments most window styles but especially the scale of smaller windows. It's the sleek design appeal of Luxaflex® Venetian Blinds with precise light control and privacy that makes it such a versatile window treatment.

Luxaflex® Venetian Blinds - 35 mm

Custom made for you - Luxaflex® Venetian Blinds are crafted with precision to your individual specification and style. The 35 mm slat style with a clean modern look is an ideal partner for medium to large windows. Control the heat and glare with softly filtered light in any room including humid bathrooms.

Luxaflex® Venetian Blinds - 50 & 70 mm

For extra-large windows the distinctive design of the 50 & 70 mm Venetian Blind balances out the scale of big windows and provides much light control. It's this fusion of form and function that makes our 50 & 70 mm blinds a pleasure to live with - practical, stylish, durable.

Design XL Venetian Blinds - 50 & 70 mm

Our latest new look Design XL is a statement in design with beautifully detailed elements like colour contrasting headrail and bottom bar that can be combined with a wide range of on trend decorative tapes. This individual design has a sharp, contemporary style that sits elegantly in larger windows. The headrail and bottom bar are available in white, silver or black. The inserts in the headrail and bottom bar match the chosen slat colour.

SLAT WIDTH

Top Down / Bottom Up 16 & 25 mm

The perfect balance between light and privacy

Another innovation from Luxaflex® is the child safe, Top Down / Bottom Up operation which uses a handle to raise or lower the blind and a slider to tilt the slats to the desired position.

The patented slider is located at the bottom and top of the blind for convenient operation. Headrail and bottom bar are available in three colours: white, silver and black.

Skylight Blinds (page 15)

Wood elements (page 16)

Fabric tapes (pages 17-21)

For more options and combinations please consult your Luxaflex® expert.

TruFit® - 16 & 25 mm 

One of our smartest innovations, TruFit® is a seamless way to install Luxaflex® Venetian Blinds directly onto the glass without drilling your window frames - ideal for UPVC windows and rental properties. This unique system can also be used for Tilt & Turn windows and doors, allowing them to be opened with the blinds in place. This intuitive, child friendly operation is available in Top Down / Bottom Up. Headrail and bottom bar come in three colours: white, silver and black.

Quick Release Chain  

The Quick Release Chain operation is easy to use and meets EN Child Safety Regulations for internal blinds. To raise, lower and tilt your blind gently operate the chain. If force is applied to the chain the quick release function is activated and the chain safely drops out. The chain can be snapped back into place and your blind will function normally again. The mechanism is available in five colours: white, cream, light grey, dark grey and black.

3 Which model or hardware option?

FrameFix™ - 16 & 25 mm

Our new FrameFix™ system requires no drilling as the magnetic frame attaches seamlessly to the window frame. Ideal for most UPVC and aluminium windows, FrameFix™ offers enhanced light control, sits neatly in the window frame and can easily be removed for window cleaning. FrameFix™ is also available with Top Down / Bottom Up operation.

PowerView® Motorisation

Imagine a world where your window treatments anticipate your needs and adjust themselves automatically, creating the perfect room ambience morning, noon and night. That's the beauty of PowerView® Motorisation. Just programme PowerView® to move all your Luxaflex® Venetian Blinds from a single window to your entire home by using the PowerView® App on your smartphone or tablet. Ask your showroom expert to show you how PowerView® operates or scan the QR code to view the PowerView® Motorisation video.

3 Which model or hardware option?

VarioFlex™ - 25 mm

Enjoy privacy and daylight at the same time

VarioFlex™ is a Luxaflex® patented design with a feature that lets you open and tilt the bottom or the top part of the blind separately, depending on your light and privacy needs. VarioFlex™ is operated by the new Quick Release Chain that is easy to use and meets EN Child Safety Regulations for internal blinds.

3 Which model or hardware option?

Skylight Blinds - 25 & 35 mm

Adding a Skylight Venetian Blind has all the advantages of making a room brighter and giving it an overall more open, airier feel, but at the same time adding light control. Luxaflex® Skylight Venetian Blinds fit virtually all skylight models and sizes including Velux® Pick&Click™. For extra protection our Thermostop™ coating blocks most heat radiation. Operation includes manual control and wand controls for hard to reach skylight windows.

Fixation clips

In the Luxaflex® Venetian Blinds collection book you will find newly developed plastic “fixation” clips. The clips are attached to the mechanism to prevent it from opening during transport of the collection book.

By sliding the clip back and forth sideways it is very easy to disconnect (to easily browse through the book) and reattach it.

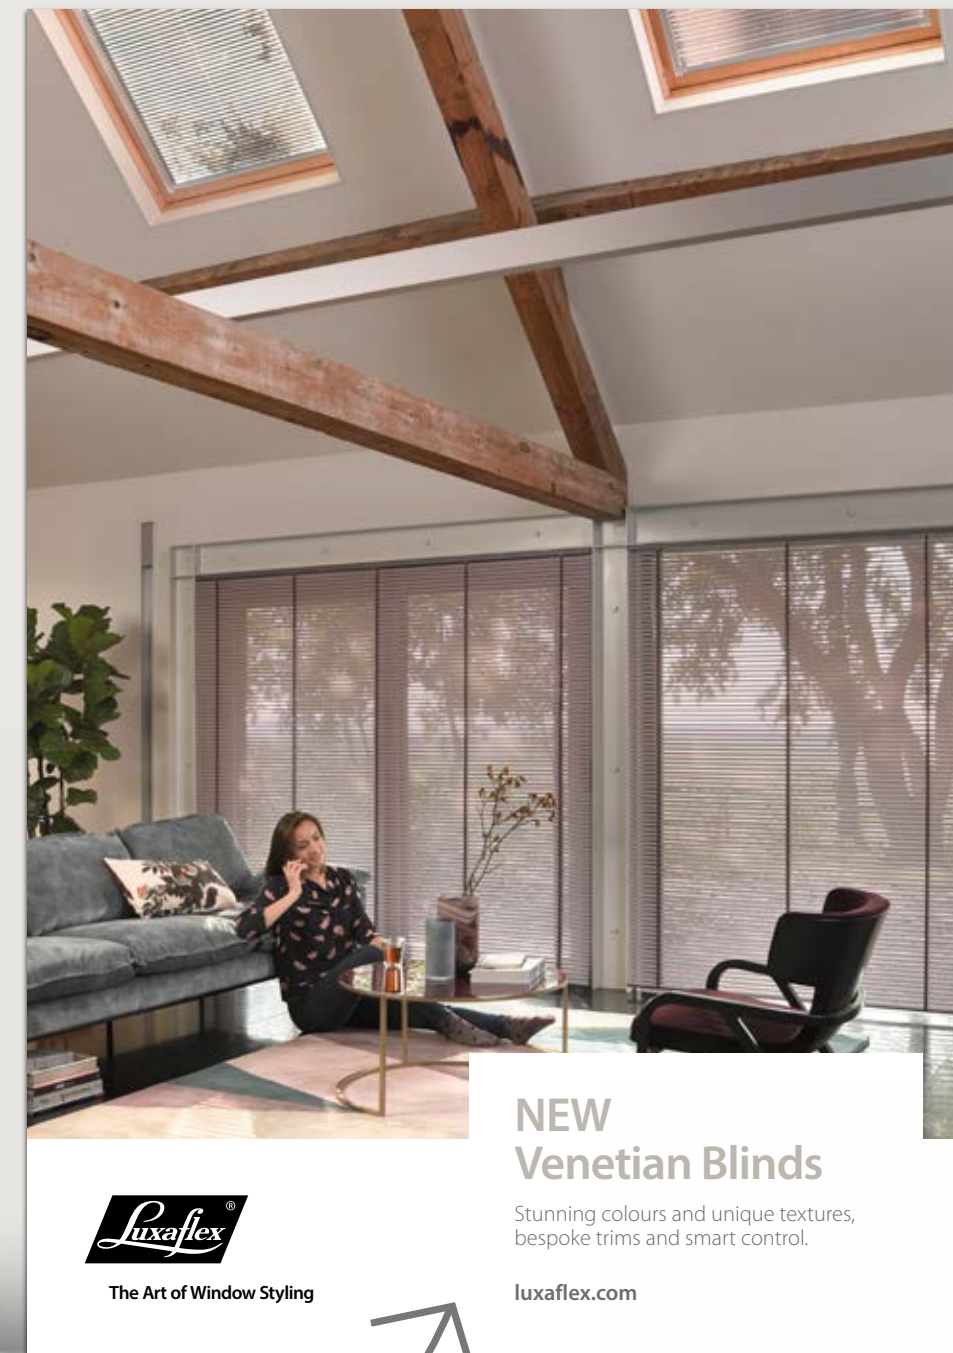

The intention is not to use the clips once but to leave them permanently in the book as extra protection of the mechanism. Handy when visiting customers at home.

Colour & Design Highlights

Patterns - Designs - Stains

The new collection features vintage looks, glossy and matt finishes and unique patterns.

Faux Wood

Stylish Faux Woods in 4 colours. Highly durable for every room but especially good for bathrooms and kitchens as they are resistant to humidity and moisture.

Supreme Hardwood

2 Natural unstained wood colours, Oak and Walnut. Made from the finest materials and quality craftsmanship.

New tapes and Cords

- New 10 mm fabric tapes available in 12 gorgeous colours
- 18 neutral tape colours to carefully selected to compliment wood tones

Supreme Wood

Luxaflex® Supreme Wood Blinds are made to measure from the finest hardwoods with traditional craftsmanship and innovative style. Our range offers a stunning selection from smooth flat woods to distinctive grain markings all carefully curated to work with your décor style.

Grain Style

The images below highlight some of the unique grain styles which can occur in our Supreme Wood Collection. The type, direction and density of the grain produce the unique patterns and colour variations that make each piece of wood so distinctive.

Flamed grain

Tiger Stripe grain

Grain transition

Luxaflex® Scandinavia

The direction and regularity of the wood fibres varies widely depending on where it was cut from the tree.

Pin Knots

This look is created by remnants of branches that have been encased by the growth of new wood look.

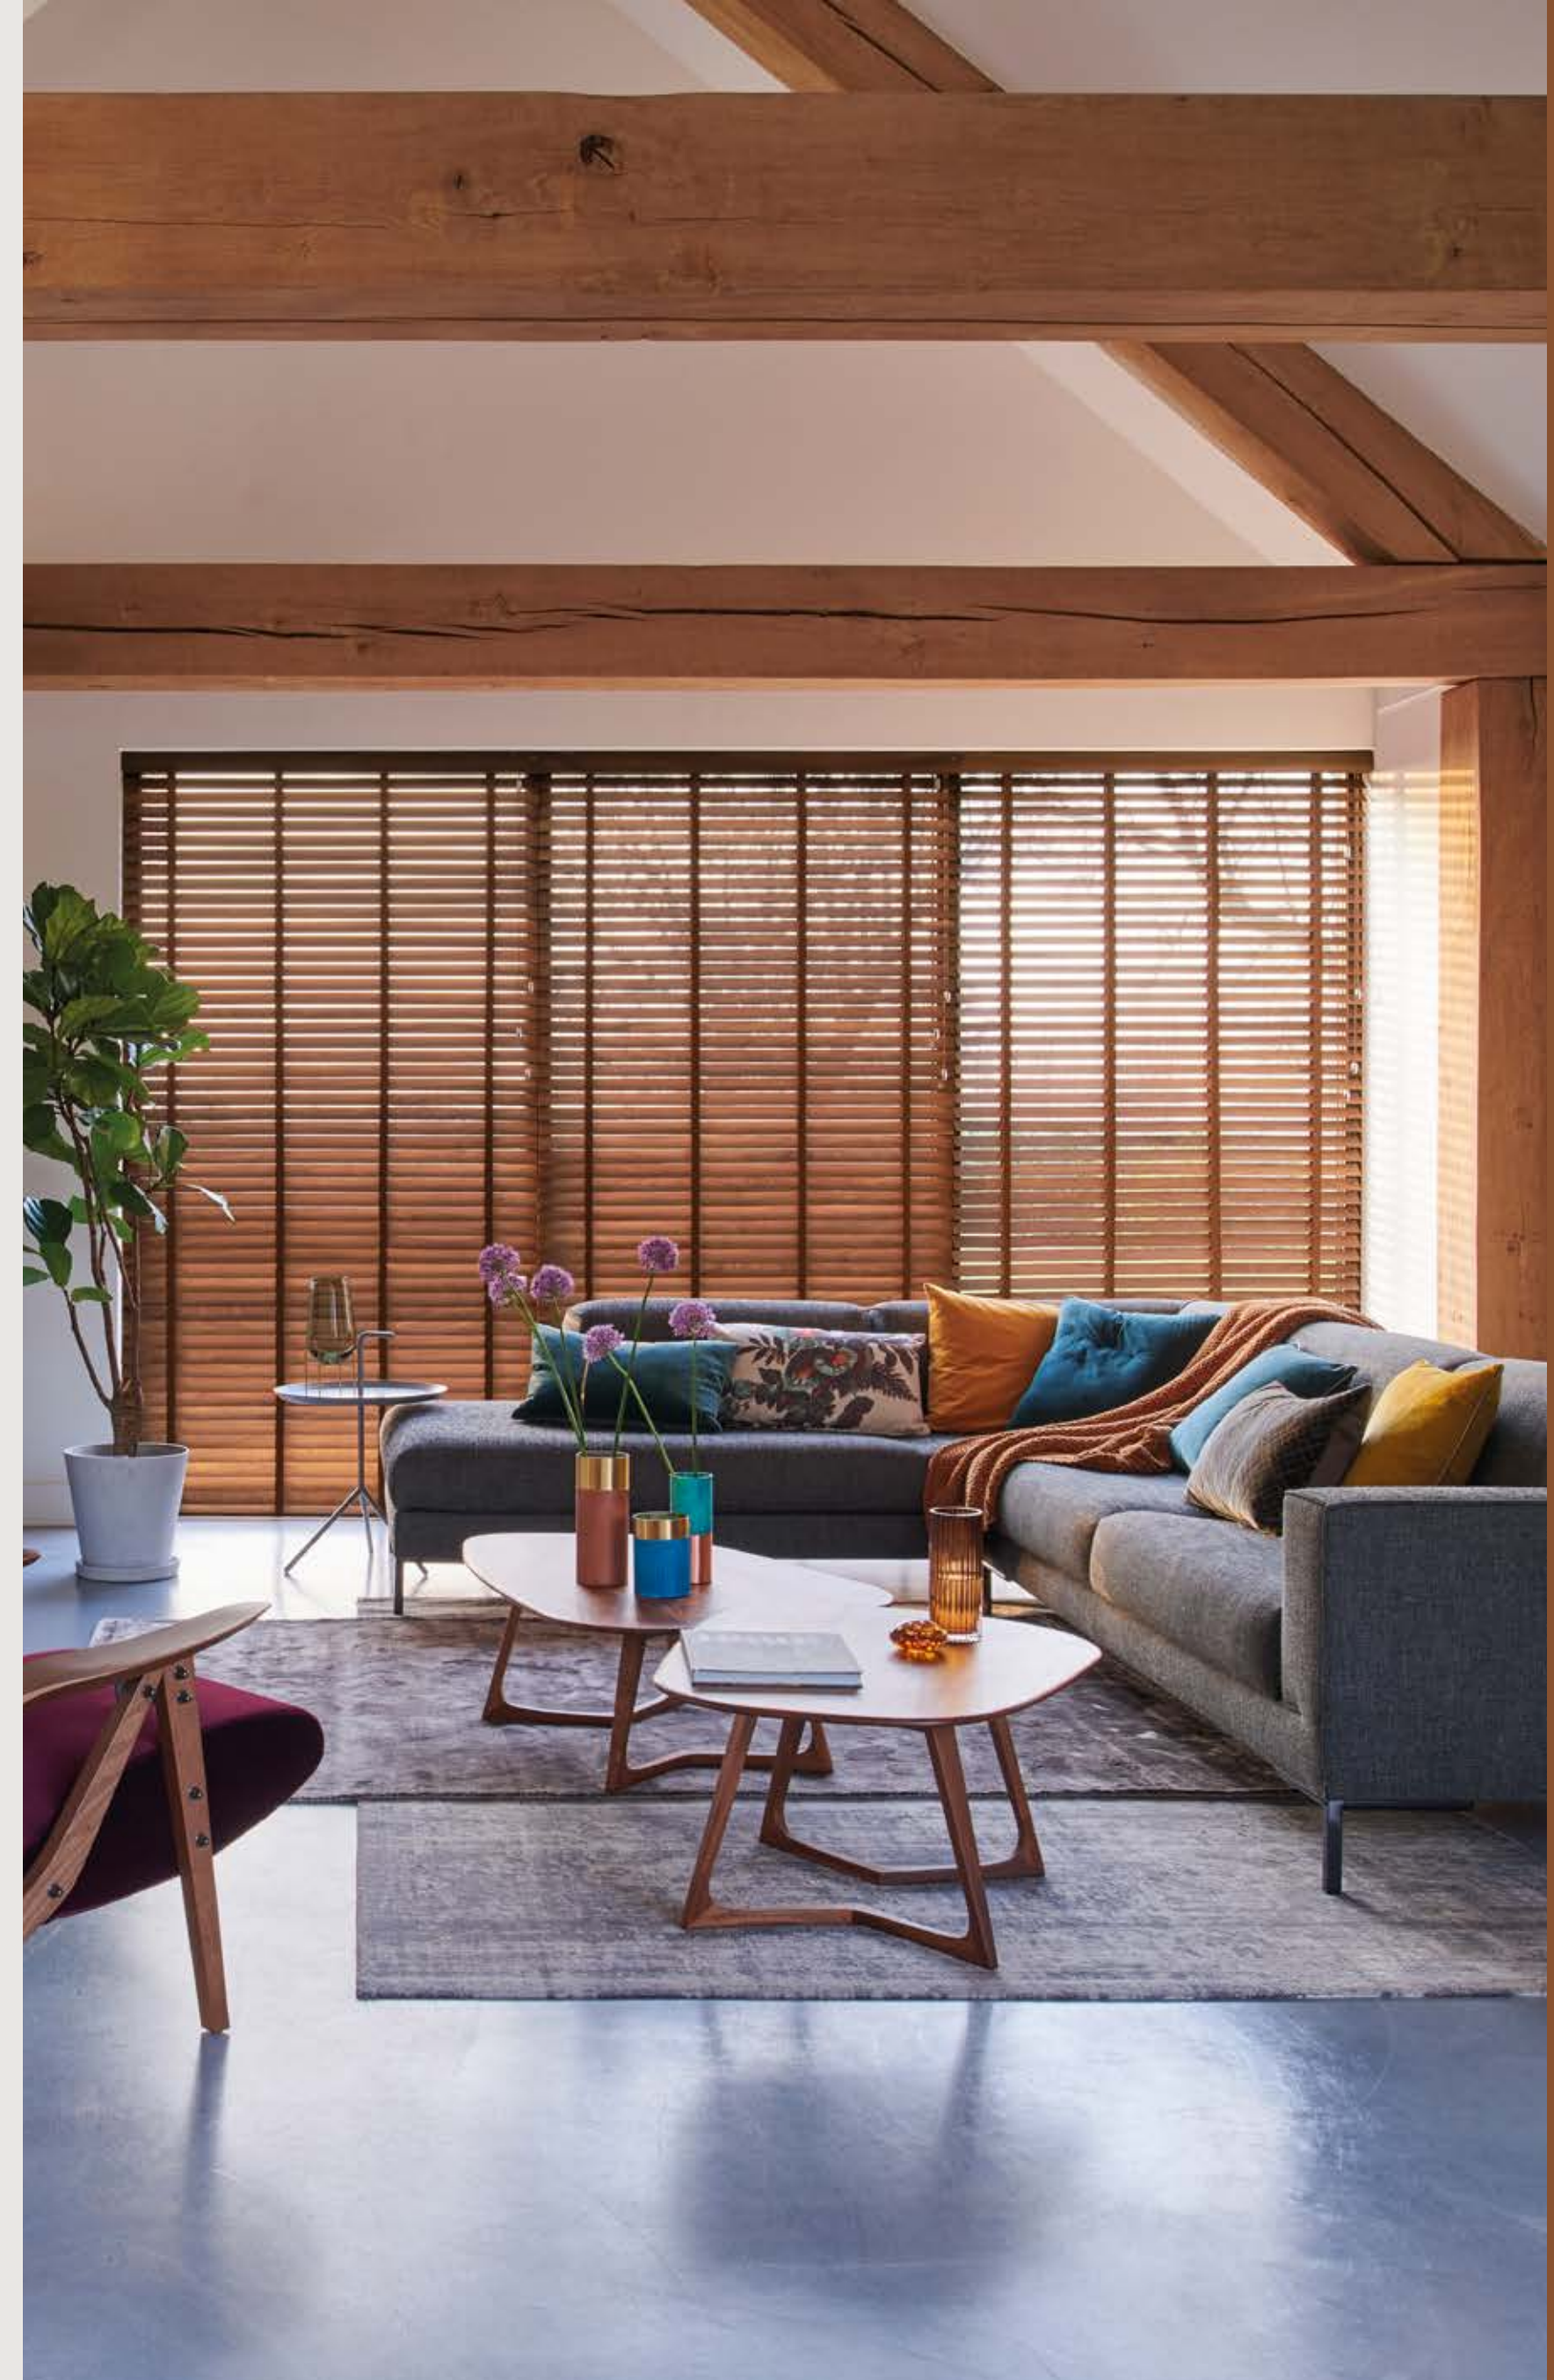

Mineral Deposits

This feature is usually the result of environmental conditions affecting the development of the tree.

Burl Figures

Formed by irregular growth on the outer surface of the tree.

Luxaflex® Scandinavia

Faux Wood

Faux Wood Blinds are the perfect blend of practicality and style.

The perfect choice for bathrooms, kitchens or pool rooms, Faux Wood Blinds are especially engineered to withstand moisture and heat without compromising on style.

Available in a range of natural wood looks and stunning painted finishes with matching decorative tapes.

Luxaflex® Scandinavia

NEW

10 mm Decorative Tapes

Stylish Fabric Tapes

All our Wood Blinds can be accessorised with stylish fabric tapes for a truly personal look.

From bold or subtle colours to on-trend patterns, the range has a look for every decor and style.

Attractive colour coordinated operating cords finish the look.

Et utvalg fra Luxaflex® trepersiennekolleksjon

Supreme

Luxaflex® Supreme træpersiener er skræddersyet af det fineste hårdtræ.
Luxaflex® Supreme träpersiener är specialtillverkade i fin kvalitet av hårdträ.
Luxaflex® Supreme trepersiener er spesiallaget av de fineste harde trevirker.

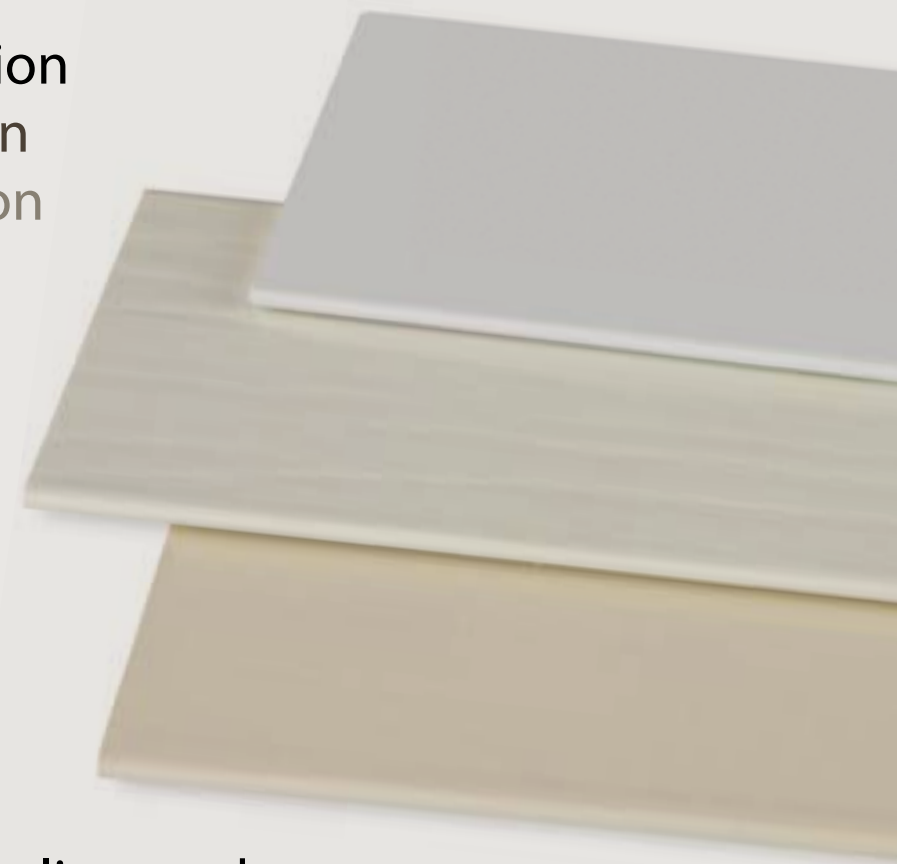

Faux Wood

Vores Faux Wood kollektion er den perfekte kombination af praktik og stil, hvilket gør den til det perfekte valg til fx badeværelser og køkkener, hvor luftfugtigheden er høj. Faux Wood kollektionen har udseende som træ, men er meget fugtafvisende.

Vår kollektion gjord av konstrå är en vacker kombination av form och funktion som passar perfekt i t.ex. badrum och kök med hög luftfuktighet. Kollektionen ser ut som trä och är mycket fuktavvisande.

I kolleksjonen med persiener av imitert trevirke finner du persiener som er både er praktiske og stilfulle. Disse persiennene er derfor det perfekte valget til for eksempel baderom og kjøkken, hvor luftfuktigheten er høy. Persiennene i denne kolleksjonen ser ut som tre, men er svært fuktavvisende.

PowerView®

Forestil dig en verden hvor dine nye træpersiener kan forudse dine behov og tilpasse sig automatisk og på den måde skabe den perfekte stemning morgen, middag og aften. Det er skønheden ved PowerView® Motorisering. Programmer enkelt PowerView® til at flytte en eller flere persiener i boligen via PowerView® appen på din telefon eller tablet. Få din lokale Luxaflex® forhandler til at demonstrere PowerView® betjeningen eller scan QR-koden for at se PowerView® videoen.

Föreställ dig att dina nya träpersiener förutser dina behov och automatiskt anpassar sig för att skapa det perfekta stämningssljuset morgon, dag och kväll. Det kan bli verklighet med PowerView® motorisering. Programmera enkelt PowerView® till att flytta en eller flera persiener i hemmet med PowerView® appen på din telefon eller surfplatta. Be din lokala Luxaflex® återförsäljare att demonstrera PowerView® styrningen eller skanna QR-koden för att se PowerView® videon.

Forestill deg en verden hvor de nye trepersiennene dine kan forutse behovene dine, tilpasse seg automatisk og på den måten skape den perfekte stemningen - morgen, ettermiddag og kveld. Dette er det flotte ved PowerView® Motorisering. Programmer enkelt PowerView® til å flytte én eller flere persiener i boligen ved hjelp av PowerView®-appen på telefonen eller nettbrettet ditt. Få din lokale Luxaflex®-forhandler til å demonstrere PowerView®-betjeningen, eller skann QR-koden for å se PowerView®-videoen.

LiteRise®

LiteRise® betjeningen er børnesikker og gør det nemmere end nogensinde at hæve, sænke og vinkle lamellerne. Brug drejestangen til at vinkle lamellerne. Skub op for at hæve persiennen og træk ned for at sænke den. Din persienne bliver præcis der, hvor du ønsker det. Ved at fjerne betjeningsnoren får du en helt enkel persienne samt en øget sikkerhed for børn og kæledyr. Velegnet til vinduer som er inde for rækkevidde.

LiteRise® betjening är barnsäker och gör det enkelt att höja, sänka och vinkla lamellerna. Använd vridstången för att vinkla lamellerna. Dra uppåt för att höja persiennen eller nedåt för att sänka den. Persiennerna stannar exakt där du vill. Genom att produkten inte har några linor får du en enkel persienn med ökad säkerhet för barn och husdjur. Den passar till fönster som är placerade så att de enkelt går att nå.

LiteRise®-betjeningen er barnesikker og gjør det enklere enn noensinne å heve, senke og vinkle lamellene. Bruk dreiestangen til å vinkle lamellene, skyv opp for å heve persiennen, og trekk ned for å senke den. Persiennen din havner akkurat der du vil ha den. Ved å fjerne betjeningsnoren får du en helt enkel persienne, samt økt sikkerhet for barn og kjæledyr. Dette er en velegnet løsning for vinduer som er innenfor rekkevidde.
